- 125A. Coming directly from the family, this unique and important grouping covers the WWII service of Pvt. Robert C. Jager in the famous 101st Airborne Division. From his enlistment to his time as a POW and final discharge. Included in the collection are items relating to Pvt Jager’s training at Ft. Benning such as his jump record, clipping from a newspaper article telling of his meeting actress Jane Russell, which is signed by her, and most important, his silver airborne wings. There is also a ripcord handle and an issued airborne belt buckle as well as a 101st Division shoulder patch. Pvt. Jager’s jump record shows his first combat jump and there is reference to his being in Holland and meeting a Dutch girl and her family. Perhaps most important, however, is the documentation of his time as a POW. Pvt. Jager was captured after his second combat jump on December 19, 1944. An included map shows the location of his capture and the route he was taken as a prisoner, from there to Stalag IV B, near Mulberg, Germany. The fact of his capture was not immediately known by his unit and he was listed as “missing in action”. The War Department letter dated January 27, 1945 informing his parents of his status and explaining the meaning is part of the documentation. This was followed by notification of the fact that he was a P.O.W. Of particular interest are the items which include postcards supplied by the Germans which he was able to send home confirming that he was in good health. Without a doubt the most important item in this collection is an extremely rare German produced POW dog tag. The tag was intended to be worn by the prisoner and includes a serial number and the location of the prison where the wearer is being held. Other items which help to round out his amazing collection are a Nazi Infantry assault badge still pinned to a fragment of camouflage material, a cloth eagle removed from a uniform a Nazi belt buckle with part of a late war combat cloth belt and several small photographs of German troops. It is likely that Pvt. Jager collected these after his first jump and sent them home prior to being captured. There are other items of interest which help to make this a truly significant opportunity to own a seldom seen piece of WW II history.
